The Institute

Indian Institute of Plantation Management (IIPM), centre of excellence and the first-of-its-kind national Institute was established at the initiative of the Ministry of Commerce & Industry, Government of India. The institute is co-promoted by the Commodity Boards of India, viz. Coffee Board, Tea Board, Rubber Board & Spices Board and Industry & Plantation Associations. IIPM has been conceived as a world renowned academic institution focusing in the field of agribusiness, commodity, plantations and associated management education. IIPM has educational membership with The Association to Advance Collegiate Schools of Business (AACSB-USA) & European Foundation for Management Development (EFMD-Brussels) and Permanent Accreditation from Higher Learning Accreditation Commission of Texas (HLACT-USA).

Message from the Director

I am pleased to welcome you to Indian Institute of Plantation Management (IIPM) Bengaluru. IIPM has served as the nation's flagship comprehensive institution for higher education. IIPMB and its research unit is one of the leading centres for Agri- business & Food sector in India. IIPM considered to be one of the best and most innovative agri-business institute in Asia.

Institute also offers high-level courses and research in all areas of agri-business, food science, ranging from advanced techno-managerial programs such as tea tasting, coffee-cupping & entrepreneurship, tasting-cum-blending, Spices export potentials, food sensory evaluation, agri-food business with more economic and managerial focus on quality & safety management systems in food circulation, marketing and meeting consumer requirements.

There is an agri-professional idiom that describes the nature of Agri-Food Science: studying food "from field to fork (folk)" and with a Master in Food Processing and Business Management, you will indeed study all aspects of food, from harvesting and processing to preparation until value addition for consumption and holistic food-business.

Food Processing & Business Management program has developed immensely over the last few years. IIPM's PGDM-FPBM is designed with high interdisciplinary applied science and management that uses achievements of different fields, such as food engineering, microbiology, biochemistry, and many others. This is the reason for a considerable number of sub-disciplines in the field of science and management included in the curriculum. The entire program curriculum design is to raise the quality of food and enhance the expertise of the students of IIPMB to provide information for safety and ways to produce food that meet the requirements of the over-populated and over-stimulated modern world.

The overall programme builds on the connections between different fields of knowledge "FOCUSED ON FOOD SYSTEMS" to train prospective decision-makers in facing real management problems both in national and international contexts and diverse industrial settings.

I invite you to our campus to explore further scope with our faculty and students on limitless opportunities that make IIPM, a truly special place.

Prof. V. G. Dhanakumar

Post Graduate Diploma in Management: Food Processing and Business Management (PGDM-FPBM)

Approved by AICTE-MHRD-GOI

Food processing is one of the largest sectors in India which has huge potential in terms of production, growth, value addition, consumption and exports. Currently, new markets for processed and value added products are emerging at the national and international level. Food Processing sector is a major source of employment / entrepreneurship and adds value to foreign exchange. The programme with a focus on food industry has been designed in close coordination with stakeholders from Food industry, University of Wisconsin Madison, USA and Central Food Research Institutions to impart the knowledge and required skills to be a game changer in the field with “Learn, Do and Serve” as its guide, the institute has offered PGDM programs.

The state-of-the-art Assurance of Learning (AoL) strategy of IIPM would make a student as a techno-managerial individual, who will learn on mission-critical skills in food analytics and laboratory accreditation, nutrition & food technology, cool & cold chains and food quality & safety management. The students will be trained on the various functional aspects in applied quality & safety, finance, marketing, human resources, decision sciences and supply chain management necessary for success in food-related enterprises. A range of sector-specific courses to meet the requirements of food industry, viz. Processing and Value Addition for Products, Soft Skills for Food Processing Business, Food Engineering, Financial Management, Exports & International Business, Global Quality & Safety Management Systems, Food Laws & Taxes, Project Feasibility & Business Plan, Practicum & Field visits, etc.

Teaching and Learning

IIPM contributes to students through three primary activities: teaching, research, self-learning and corporate training/internship. The Faculty and academic facilities viz., library, computer centre, technical lab, knowledge resource centre, placement unit, campus and academic ambience are unsurpassed by those of any institutions. The institute offers its teaching and learning transactions through lectures, video, seminars, group works, case studies methods, issue analysis, cyber learning, role plays, tasting (sensory test for product innovation), market surveys, field & industry visits, study abroad and guest lectures. The Knowledge Resource Centre of the institute is equipped with state-of-the-art, digital language and communication skills lab, where students get a hands on experience to acquire business communication skills. PGDM-FPBM (approved by AICTE) offers a range of sector-specific courses to meet the requirements of industry. The faculty carefully craft curriculum and developed effective Assurance of Learning (AoL) resources and best practices for student learning. The classroom sessions are supplemented with lecture, video, seminar, group work, role-play, tasting (sensory test), field & industrial visit, study abroad and guest lecture.
