

International Conference
on
Global Practices of Sustainable Agri Farm Business
24th & 25th August 2022

About the Conference:

Endowing in agriculture is widely recognized as one of the most effective ways to alleviate poverty increasing the livelihood, improve, food security and reduces hunger and malnutrition. Embracing sustainable farming practices will contribute to the agro ecosystem exertions to meet the globe's current and future food requirements. Unique and specialized farming practices are experienced across the globe focusing on the holistic development of the environmental, social and economic sustainability of the farming community. The current agricultural farm practices of the emerging economies are unsustainable due to the negative implications on the resources and environment also the lack of sustainable agri farm business practices. In this context the proposed International Conference on Global Practices for Sustainable Agri Farm Business aims to bring together leading academicians, scientists, researchers, agri business management practitioners and research scholars cross the global to exchange and share their experiences and research results on all aspects of sustainable Agri- Farm practices and business management strategies. It also provides a platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, engineering, technological applications and concerns as well as practical challenges encountered and solutions adapted in the field of agri farm business. The conference serves as platform to the Academicians, research scholars, practitioners, policymakers and students to exchange knowledge and ideas on different verticals of sustainable agri-farm business.
